Thank you for purchasing the Fantasy Grounds Meanders Map Pack: Galactic Cruiser. Featuring 24 ready-to-go maps - Galactic Cruiser offers sci-fi themed maps from the Meanderverse for use in Space-based RPGs. High above Centauri Alpha homebase, the 'ISS-Elkan' hangs in space, fully equipped for cargo runs and light evasive combat. "State-of-the-Arc" facilities give it unrivalled versatility

Maps are sized specially for FG at 1350x900 and under 500 kb each to help prevent slow-down during play. The maps are sized to perfectly fit a 50 or 60px grid that you can manually place over the top of the map using Fantasy Grounds - see 'Hot Tips' at the base of this document for help on doing that.

DM Convenience is the focus with carefully labelled maps and several ways to access, use and choose the maps in this module. Use the VISUAL MAP SELECTION PANEL and pick your map from the thumbnails and yellow label by clicking on the pin. Or use the RANDOM ROLL TABLE - a d100 table to pick your destination at random.

These maps can be combined with additional Sci-fi or Fantasy packs in the FG Meanders Map Pack Range to build huge ships, spaceports and planet structures.
