Complete horse\u2665\u2665\u2665\u2665\u2665\u2665dont buy!. First a short english review, because there is no other review right now. At the end you can find a gameplay video about the first minutes. In the guide section is a full walkthrough from me.

AntiHorror is a short little indie-comedy-horrorgame. If you like wierd humor, it is fun.

Pros:

- Price
- It is funny
- Enjoyable

Cons:

- Lots of Unity-Assets
- Game feels cheap
- Game is too dark

Nun gehts in deutsch weiter.

AntiHorror ist ein kleines Indie-Horrorspiel. Obwohl, eigentlich ist es kein Horror Spiel sondern eher Comedy. Sinn ergibt das ganze gar nicht, aber es hat doch einige wirklich gute Lacher drin. Alles ist sehr skuril und absurd. Insgesamt ist es recht kurz, man kann es unter einer Stunde durchspielen. Grafisch sieht es akzeptabel aus, ist aber sehr dunkel. Leider benutzt es viele Unity Assets, die aus anderen Games bekannt sind.. Das Spiel hat nur eine russische Sprachausgabe, aber die Texte sind englisch. Der Sound ist okay. Die Steuerung ist auch gut. Im ersten Teil des Spiels muss man 7 Notizen finden, danach gibt es auch einige kleine R\u00e4tsel zu l\u00f6sen. Alles eher unkompliziert. Mir hat es Spa\u00df gemacht, aber man muss schon den spezzellen Humor m\u00f6gen. F\u00fcr den kleinen Preis empfehle ich es.

Pro:

- Witzig
- Preisniveau
- Macht Spa\u00df

Contra:

- Besteht nur aus Unity Assets
- Insgesamt wirkt es sehr billig
- Spiel ist sehr dunkel

I wasted 1.99 on this game. This is why they need demos for games to be released on steam. This game goes from a random toilet to needing to find notes. Is there a refund option because this game is horrible and I try to find the good side of any game. 10 minutes of playing and I'm done with this pile of garbage.. I can't believe there are positive reviews for this game. The game is god awful. It's so bad I couldn't even put together a video for it. I stopped at 2/7 notes found. The other 5 notes can go ♥♥♥♥ themselves.. From the trailer this game looked pretty promising, it's not. This game is another slapped together unity cash grab. The game revolves around finding 7 notes, after some of which you are treated to a low-rent jokey "pop-scare". It's not a serious game, it's aware that it is a joke, but unfortunately that is also what the "developer" thinks of you the consumer.

<https://www.youtube.com/watch?v=zPHciJeTjOk>. Anti-Horror takes a mocking stand towards the horror genre by incorporating a lot of humor and horror clichés. If you're looking for a funny, short (+- 1h) and sometimes scary game: look no further.
